

Raritan Township Historic Committee Newsletter: 4/2022

May 7th Presentation and Old Historic Short Films

The Raritan Township Historic Committee hosts a presentation by a local historian and detectorist at the Raritan Township Municipal Building on Saturday, May 7, 2022, at 10:00 AM.

James Z. Holot, a local amateur historian and expert metal detectorist, will be presenting his interesting discoveries at this meeting. James is a 10th Grade Honors Student at Hunterdon Central Regional High School where he recently received the Student of the Month Award (March 2022).

The 16-year-old has been interested in local history ever since he heard Mr Richard Stothoff present “The Skirmish at Geary’s Ridge” during Hunterdon County’s 300-year Anniversary celebration in 2014. Soon after, James began metal detecting and quickly discovered interesting artifacts that closely relate to the rich history of our area. He has carefully researched and catalogued each artifact to help preserve these treasured historical items that otherwise would have been lost to time and community progress.

James is also an avid coin collector and Platinum Member of the American Numismatic Association. Outside of his interest in history, James spends time fishing, playing ice hockey, and learning all that he can about becoming a future businessman and entrepreneur. James lives in Raritan Township with his parents, Natalia and Jamie, grandparents, Jim and Joan, and younger brother, Nikolas.

In addition, there will be some special short films! Join us for this special event.
