

Preliminary/Final Site Plan Checklist (September 2021)

Applicant: _____

Block: _____ Lot: _____

Address: _____

All applications for Preliminary/Final Site Plan shall be accompanied by the following information except that the Planning Board may waive any requirement or request additional information where it is clearly appropriate to the particular application. Failure to comply shall render such application incomplete. This document is provided for informational purposes only. Please refer the Raritan Township Section 296-73(D) for complete submission requirements. All waiver requests must include a written request and description per Section 296-58.

	Information Required	Submitted	Not Applicable	Waiver Requested
1	Two (2) copies of an affidavit of ownership or letter from the owner authorizing submission of the plat.			
2	Two (2) copies of a letter of intent stating the type of structure to be erected and its use, the approximate start date of construction, and any phasing plan for site plan.			
3	Twenty-five (25) copies of a Wetlands Analysis and Report in Accordance with Section 296-67.			
4	Twenty-five (25) Copies of an Aquifer Test and Analysis and Report in accordance with Section 296-70, when the application is proposed to be serviced by on-site wells.			
5	Twenty-five (25) copies of a Traffic analysis and report in accordance with Section 296-68.			
6	When the development is to be located in the sanitary sewer service area two (2) copies of written communication from the RTMUA that indicates that adequate sewage treatment capacity has been reserved for the development shall be submitted along with a copy of the reservation agreement and/or proof of payment of deposit on connection fee.			
7	Two (2) copies of ownership interest of corporation, limited liability company, or partnership in accordance with the Municipal Land Use Law.			
8	Twenty-five (25) copies of completed Raritan Township Site Plan application form.			
9	Twenty-five (25) copies of completed Raritan Township Preliminary/Final Site Plan checklist form.			
10	Township Application fee.			
11	Township Escrow payment.			

12	Twenty-five (25) copies of a completed Raritan Township Variance application form (if variances from township ordinance are requested or required).			
13	When development is to be located in the public water service area, two copies of correspondence from the public water company indicating service can be provided.			
14	Certification from Raritan Township Tax Collector that all taxes, sewer charges, or other assessments on the entire tract have been paid to date.			
15	Copy of Hunterdon County Planning Board application form as submitted to the Hunterdon County Planning Board.			
16	Two (2) copies of current deed and all existing and proposed protective covenants, deed restrictions, or easements that apply to tract.			
17	Where common open space is to be provided; two (2) copies of a letter detailing the proposed use and ownership of said open space.			
18	Five hard copies and one pdf copy of the site development storm water management plan in			
19	Completed W-9 form.			
20	Twenty-five (25) copies of the site plan plat in accordance with the following:			
20a	Name of development.			
20b	Name and mailing address of the applicant and the owner.			
20c	Name, mailing address, seal, signature and professional designation of the person preparing the plat.			
20d	Name of owners and block and lot numbers of all contiguous land and of property directly across the streets and railroads as shown by the most recent tax records of all municipalities in which such properties lie or to which they are adjacent.			
20e	Location map showing the entire tract and the relationship to all features within one-half mile of the extreme limits of the tract as shown on the adopted master plan or official map of the township and Hunterdon County. Scale of the map shall be shown.			
20f	Date prepared and all revision dates.			
20g	North arrow.			
20h	Written and graphic scale.			

20i	Plat scale shall not be smaller than one-inch equals sixty (60) feet. Where it is physically impossible to show the entire tract on one sheet of maximum size of twenty-four (24) by thirty-six (36) inches, a separate sheet of a smaller scale may be utilized to show the entire tract to supplement the more detailed sheets at the larger scale.			
20j	Lot dimensions and bearings based on the boundary survey.			
20k	Tax map sheet, block and lot numbers.			
20l	Zoning district and zoning of surrounding properties.			
20m	Area of tracts proposed for development in square feet and acres.			
20n	Location of all waterways, ditches, swales, wetlands, wetland transition areas, state open waters, and water bodies.			
20o	Floodplains for all permanent streams and intermittent streams with flood potential as delineated for the floodway and flood hazard area by the New Jersey Department of Environmental Protection or, in the absence of such information, for the one hundred (100) year flood pursuant to a method approved by the township engineer.			
20p	Location and dimensions of existing and proposed buildings, structures, Street pavement, walks, rights-of-way, easements, drives, parking areas, loading areas, paved areas, fire lanes, utility poles, etc			
20q	Building setbacks as required by the zoning ordinance, dimensioned distances from all existing and proposed buildings to the nearest property line, existing and proposed building entrances, corner grade elevations, existing and proposed square foot- age of building.			
20r	Floor area ratio, if applicable, pursuant to Schedule I located in the Appendix to this title.			
20s	Area of hard surfaces including gravel areas.			
20t	Floor plans and elevations of each new or altered building façade. Height of proposed structures;			
20u	Location of drives and streets within two hundred (200) feet of the tract.			

20v	All existing physical features on the site and within two hundred (200) feet of the site boundaries including streams, watercourse, wetlands, wetland transition areas, state open waters, water bodies, existing woodlands, and shrub areas, existing isolated trees eight inches in diameter at breast height, and ornamentals two inches in diameter, measured four and one-half feet above existing grade, and significant soil and hydrological conditions, such as swamps, rocks and water flows.			
20w	Topography showing existing and proposed contours at five-foot intervals for slopes averaging ten percent or greater, and at two-foot intervals for land of lesser slope to determine the general slope and natural drainage of the land and the high and low points for the tract being developed and for a distance of two hundred (200) feet. Topography shall be supplemented with sufficient grades along curbs, road center lines, buildings, property corners, tops of stream banks, and at other pertinent locations to clearly delineate the proposed grading. All elevations and contours shall be instrument verified and shall be based on United States Coast and Geodetic Survey data.			
20x	Steep slope calculations in accordance with Section 296-143.			
20y	Soil types and boundaries pursuant to the Hunterdon County soil survey including an analysis for development capability. Information concerning fill material shall be supplied for any filled soil areas.			
20z	Parking, loading and unloading areas shall be indicated with dimensions, traffic patterns, access aisles and curb radii.			
20aa	A schedule shall be shown indicating the proposed number of motor vehicle and bicycle parking spaces and the number required by the zoning ordinance or requirements of this title.			
20bb	A chart indicating the square footage of new or altered space and the square footage of new or altered parking areas and other hard or pervious surface area.			
20cc	Improvements such as roads, curbs, pavement, retaining walls, fences and walls shall be indicated with cross sections, construction details and dimensions.			
20dd	Improvements such as fences, dumpster enclosures, wheel stops, benches, play equipment, lighting, trash receptacles, etc., shall be indicated with the construction details and dimensions as appropriate.			

20ee	Location and design of existing and proposed stormwater management systems including drainage area map and calculations of runoff and detention; septic systems; sanitary sewer lines; hydrants; wells; public water supply lines; utilities above and below grade; and methods of solid waste storage and disposal.			
20ff	Items or features which are to remain or be removed both above and below grade.			
20gg	The results and location of all abandoned, failed and passing percolation tests; the location and results of all soil logs; the date percolation tests and soil logs, were witnessed; and the name of the township witness.			
20hh	The specific purpose of any easement or land reserved or to be dedicated for any use.			
20ii	Detailed landscaping and buffering plan indicating what will remain and what will be planted, including botanical and common name, size, quantity, time of planting, planting and staking/guying details, maintenance plans, mulched areas specifying type, thickness and edge of mulched areas, and whether plants are container, balled and burlapped (B and B) or bare root. A schedule containing the following information shall be included on the landscaping sheets; botanical and common names, quantities, size, type of transplants (container, B and B, bare root), and whether staked and guyed, and landscaping calculations as per Section 296-75(D).			
20jj	Soil erosion and sediment control plan in accordance with the soil erosion and sediment control ordinance of Raritan Township.			
20kk	Lighting details as per Section 296-75(G) including lighting point plan.			
20ll	Detailed sign plan pursuant to Article XIX, including location, dimensions, area, style, lettering style, color, construction, materials, etc., of all signs where ground, roof, wall or of other sign type.			
20mm	Barrier-free construction details and facility locations.			
20nn	Staging and construction access plan for large projects.			

20vv	<p>Tree Preservation.</p> <p>i. No more than fifty-five (55%) percent of the existing mature woodland tree canopy within the property boundaries shall be removed. (Not to be interpreted as 55% of the total lot area). The location of the remaining forty-five (45%) percent of the mature woodland tree canopy to be preserved shall be noted on the landscape plan. Steep slope limits of disturbance and maximum hard surface requirements under Table I shall supersede this section when appropriate. (Ord. 10-27; Ord. 11-3)</p> <p>ii. No tree that qualifies as a specimen and historic tree shall be removed unless the applicant replants trees in accordance with Section 296-71T. (Ord. 10-27)</p>			
21	Two (2) copies of the Affordable Housing Production Plan in accordance with General Provisions, Art. II			
22	Twenty-five (25) copies of a Natural Resource Inventory in accordance with Section 296-71;			
23	Pre-application meeting to be held with Township Engineer and Township Planner;			
24	In addition to paper plans, initial plan sets shall be submitted on CD (or other acceptable archivable electronic format) in the most recent version of AutoCAD and in pdf format. Subsequent revisions shall be submitted in paper format and pdf (via e-mail acceptable). The final approved revision shall be submitted in paper, AutoCAD and pdf formats on CD (or other acceptable electronic format). (Ord. 06-21 § 18, 22, 23 & 24)			
25	Recycling Plan. The subdivision plat shall conform with the requirements of Section 382-12 for new developments of multi-family residential units, commercial, institutional, or industrial properties. (Ord. 10-20)
